Zentech Awarded ADNOC Drilling's Multi-Year Engineering Support Contract

Source: <http://www.adnoc.ae/adnoc-drilling>

Zentech, Inc. has been selected by ADNOC Drilling on an exclusive basis to provide comprehensive engineering support for all ADNOC Drilling engineering needs for both their Offshore and Onshore drilling rigs.

The award includes the full range of the engineering service provision of Zentech including but not limited to structural engineering, marine engineering, naval architecture, mechanical engineering and electrical engineering. This all-encompassing contract is for a three-year period.

This engineering contract strongly complements the already existing standardization that ADNOC Drilling has implemented with the use of Zentech's Load & Stability program for Jackups (LosJack) for its entire offshore fleet for day-to-day operations.

Ajai Peter, Area Manager of Zentech's UAE Operations commented, "On behalf of our CEO, Ramesh Maini, and our entire company, we are delighted with this award as a recognition of our continued service, quality and commitment to ADNOC Drilling and to the Offshore industry around the world. This will further strengthen the 16 year relationship we have with ADNOC Drilling, he added."

About Zentech, Inc.

Zentech is an engineering consulting, project management and construction management company; comprised of experienced professionals specializing in providing services to the offshore oil and gas, marine, renewable energy and construction industries. Our vision is to be the clear leader in providing innovative engineering solutions to the upstream oil and gas and renewable energy industries. <https://www.zentech-usa.com/>

About ADNOC Drilling

ADNOC Drilling is the national drilling company of ABU DHABI, UAE operating on an integrated basis and specializing in the oil, natural gas and energy industry. ADNOC is present in the exploration and production, refining, marketing, transportation, petrochemicals, oil product distribution, natural gas, electricity, chemical-gas and biofuel segments. <http://www.adnoc.ae/en/adnoc-drilling/>
